You are cordially invited to a public open house

Sustainability at its Core: A Student-Built Green Home at Jasper Ridge Biological Preserve

Friday, April 18, 2014
1:30 – 4:00 p.m.
Jasper Ridge Biological Preserve
RSVP to Carolyn Taylor at cet02@stanford.edu

Please note: reservations for this event are **REQUIRED** due to logistical constraints.

About the Start.Home:

Start.Home was moved to the university’s Jasper Ridge Biological Preserve in October 2013 and now serves as the home to the preserve’s ranger and his family, with plans for eventually becoming a residence for long-term visiting research and scholars of the preserve.

Come join us and learn about the Stanford Start.Home from students and members of the project team!
